Paul,

We have already met with the Regional Forester for the Forest Service to discuss restoration activities, they are very concerned. We will have alot to discuss on June 18th, perhaps we should allocate more than 45 minutes for our discussion.

Here is a photo taken early Sunday morning when I arrived at the property. Our Petersen Ranch manager called me at 1130pm Saturday night to advise me that Elizabeth Lake was in flames, so I jumped in my car and drove down. The fence post was still on fire when I arrived! Thank you, Tracey
